

# Caring for your IRON HORSE Chair

Properly disinfecting and cleaning your work area is more important now than ever before. IRON HORSE Seating is devoted to the well-being and education of our customers so you can provide a safe working environment and protect the performance and quality of your IRON HORSE Seating products. To assist you in your workplace cleaning measures and reassure you of best practices for cleaning your chair(s), we've put together the IRON HORSE Chair Care Guide.

## **ABOUT IRON HORSE SEATING CHAIR CARE**

The proper treatment of your IRON HORSE Seating chair directly correlates to its longevity. Using the appropriate cleaning measures will go a long way towards preserving the integrity of the fabrics and materials of your chair. Find the material your IRON HORSE chair is made with and follow the recommended cleaning instructions to make sure your IRON HORSE maintains it's craftsmanship and working quality.

## **RECOMMENDED CLEANING INSTRUCTIONS**

### **LEATHER**

**Recommended Cleaner: Soap & Water**

**Recommended Disinfectant: Soap & Water**

Your leather should be cleaned with a soft cloth and a small amount of soap and water. Allow soap solution to free the soil for several minutes then completely clean off all soap with a damp, soft cloth. **DO NOT** use abrasives.

For leather quality maintenance, after cleaning, apply a generous amount of leather conditioner and allow it to penetrate your clean leather for approximately five minutes. Then buff it out with a soft cloth.

**DO NOT** use silicone-based or alcohol-based products. These cleaners will cause significant damage and void your warranty.

# Caring for your IRON HORSE Chair

## RECOMMENDED CLEANING INSTRUCTIONS

### SYNTHETIC LEATHER

**Recommended Cleaner: Soap & Water**

**Recommended Disinfectant: (1:5) Bleach/Water Solution, Rubbing Alcohol**

Your Synthetic Leather should be cleaned with a soft cloth and a small amount of soap and water. Use a (1:5) bleach/water solution or rubbing alcohol if sanitizing. Make sure to rinse with clean water following sanitization of your chair. **DO NOT** use abrasives.

### CLOTH

**Recommended Cleaner: Vacuum**

**Recommended Disinfectant: Antibacterial Fabric Spray, Soft Interior Brush**

Your cloth should first be vacuumed free of any debris. Follow with an antibacterial fabric or cloth spray to disinfect. Be sure to not oversaturate, as this can lead to mold underneath the seat cushions. Next, use a soft interior brush to massage the sprayed area(s). **DO NOT** use abrasives or a stiff interior brush, as these can damage the fabric.

### WARRANTY

Using non-recommended cleaners will cause significant damage to the leather and will void your warranty. If you have any further questions about how to properly care for your IRON HORSE office chair, please contact us immediately.
